

Team Name: sdmay24-36

Team Members: Johnny Tran, Alec Frey, Kyle Geerts, William Nash, Mac Whitney, Reese Jamison

Report Period: Oct 9-Oct 22

Summary of Progress in this Period

We were given access to openAI API and ChatGPT4. Wymore and Duwe want to see a UI to showcase better what we have been working on. We also were given access to Iowa State's Development Canvas, so we can start testing the Canvas API

Pending Issues

Testing assignments and strategies

Plans for Upcoming Reporting Period

Finish getting from a Canvas Quiz to our UI in a smooth manner with a stretch goal to submit a grade back to Canvas. We will also keep working on our "super" prompt to get better responses from ChatGPT. Basic Unit testing framework was created, but may need to be expanded on to be effective.
